12, kola sanusi street, mabolaje, oyo

Education

National Diploma computer science

Federal college of animal health and production technology

2019 - 2022

Software Tech Certified

NPOWER, Federal Republic Nigeria Empowerment

2020 - 2021

SSCE certificate

God's Blessing College

2012 - 2018

JSCE certificate

AL-Iman High School

2007 - 2012

About Me

Results-driven Senior Frontend Developer specializing in building high-performance web and mobile applications using Next.js, React, React Native, and TypeScript. I excel at transforming complex requirements into intuitive, scalable user interfaces with strong attention to detail and modern UI/UX best practices. With extensive experience across component-driven architecture, state management, API integrations, and performance optimization, I consistently deliver robust, maintainable solutions.

Collaborative and product-focused, I thrive in fast-paced environments where clean code, seamless user experience, and reliability are top priorities. I'm passionate about shipping polished digital experiences that empower users and drive business impact.

Skills

- **Frontend Development**: Proficient in developing visually appealing and user-centric web applications using HTML, CSS, JavaScript and React.
- **Responsive Design**: Strong understanding of responsive design principles, ensuring seamless user experiences across various screen sizes and devices.
- **Frontend Tooling:** Proficient in utilizing frontend tools such as Webpack, Babel, and npm to streamline development processes and optimize project performance.
- **Problem-Solving:** Strong analytical skills and ability to troubleshoot and resolve complex frontend issues to ensure optimal website functionality.
- **Collaboration:** Effective team player, experienced in collaborating with designers, backend developers, and cross-functional teams to deliver cohesive web solutions.

Work Experience

FRONTEND DEVELOPER OCT 2025 - TILL DATE

PAYPETAL

- Built and maintained the company's fintech mobile application using React Native, delivering secure, fast, and user-friendly financial features for customers.
- Developed the merchant web application with Next.js and TypeScript, enabling businesses to manage payments, transactions, and account operations efficiently.
- Implemented clean, scalable frontend architectures across both mobile and web platforms, improving performance, maintainability, and deployment workflows.
- Collaborated with product, backend, and design teams to integrate APIs, authentication flows, dashboards, and real-time financial features seamlessly.
- Ensured robust code quality through testing, documentation, and code reviews, contributing to a stable and reliable product ecosystem.
- Delivered responsive, intuitive UI components that enhance user experience for both end-users and merchants across devices.

FRONTEND DEVELOPER OCT 2024 - NOV 2025

OUR PROPERTY NG

- Led the development of scalable, high-performance applications using Next.js, enhancing user experiences and aligning with industry best practices.
- Architected and maintained robust codebases, leveraging TypeScript and modern frontend libraries to streamline development and ensure maintainability.
- Collaborated with cross-functional teams (design, backend, product) to implement seamless integrations, delivering features on time and within scope.
- Maintained high code quality through rigorous code reviews, testing, and documentation, supporting team knowledge sharing and consistency.
- Implemented responsive, user-centric UI components, ensuring accessibility and cross-browser compatibility across devices.

FRONTEND DEVELOPER 2023 - JAN 2024

TECHZILLA INC. | 2023 - JAN 2024

- Led a team of frontend developers, assigning tasks, conducting code reviews, and mentoring junior developers.
- Built complex and performant UI components and features using ReactJS and related libraries (e.g., Redux, Shadcn-UI).
- Worked closely with designers, backend engineers, and product managers to translate design mockups into functional web experiences.
- Debugged complex frontend issues, ensuring smooth application functionality across various browsers and devices.
- Wrote clean, maintainable, and well-documented code, fostering a collaborative development environment.
- Explored emerging frontend technologies and implemented solutions to enhance user experience and application performance.

FRONTEND DEVELOPER 2021 - 2022

OYO TECH HUB | 2021 -2022

- Contributed to cutting-edge projects at the tech hub, driving frontend excellence.
- Collaborated with multidisciplinary teams to design and implement responsive, user-centric interfaces.
- Utilized HTML, CSS, and JavaScript to create seamless interactions and enhance user experiences.
- Leveraged React framework to develop modular components, resulting in efficient and maintainable codebase.
- Actively participated in code reviews, fostering a culture of continuous improvement.

Work Achievements

- Mentored and guided a group of aspiring developers within the school tech community, contributing to their successful completion of multiple web projects and fostering a growth-oriented learning atmosphere.
- Earned over $200 while in school by developing the frontend of my classmates final year projects.
- Designed and developed a meeting minutes management system from scratch with lots of features like speech to text, authentication and lots more.
- Successfully launched an LMS platform, resulting in a 60% increase in user enrollment.
- Improved website load time by 95%, enhancing user experience and SEO rankings.

FRONTEND DEVELOPER FEB 2024 - MAR 2025

JOBSKILLS CITY | FEB 2024- MAR 2025

- Developed a comprehensive Learning Management System (LMS), enhancing user engagement and providing a seamless learning experience.
- Integrated social media functionalities to increase user interaction and broaden the website's reach.
- Regularly update and maintain the website, ensuring optimal performance and security.
- Provide technical support and training to users, facilitating smooth navigation and utilization of site features.
- Troubleshoot and resolve issues promptly to minimize downtime and enhance user satisfaction.
- Wrote clean, maintainable, and well-documented code, fostering a collaborative development environment.

SOFTWARE DEVELOPMENT TRAINING 2020 - 2021

FEDERAL GOVERNMENT OF NIGERIA EMPOWERMENT PROGRAM

- Participated in an intensive software development training program sponsored by the Federal Government of Nigeria.
- Acquired comprehensive knowledge of frontend technologies, including HTML, CSS, and JavaScript, through hands-on projects and guided learning.
- Developed a solid foundation in building interactive user interfaces and responsive designs.
- Leveraged this training to excel as a frontend developer, applying practical skills in real-world projects to create visually appealing and user-centric web applications.

FRONTEND DEVELOPER MENTOR 2019 - 2022

MOOR TECH COMMUNITY I 2019 - 2022

- Simultaneously served as a proactive frontend developer and dedicated mentor within the school's tech community.
- Led a diverse group of students in immersive web development workshops, imparting comprehensive knowledge of HTML, CSS, and JavaScript fundamentals.
- Skillfully guided mentees through the creation of their first web projects, fostering hands-on learning and skill acquisition. Demonstrated exceptional communication skills by breaking down complex concepts into digestible insights, fostering a supportive learning environment.
- Leveraged my frontend expertise to provide real-world insights and industry best practices, enabling students to embark on successful coding journeys.
